Board and Governance Leadership

Greg A. Johnson is a seasoned biotech executive and board member with more than 30 years of global leadership experience across North America and Europe. He brings deep expertise in clinical research, operations, finance, and strategic growth to both fiduciary and advisory boards, with a particular focus on emerging biotech and life sciences ventures.

Greg served on the Board of Directors of MedGenesis Therapeutix Inc. from 2019 to 2024, contributing to strategic direction, licensing negotiations, and corporate governance. He is a Wharton-certified governance professional and a trusted advisor to founders and executives navigating drug development, M&A, and operational scale-up.

Executive Experience

As a former President, COO, and CFO of MedGenesis Therapeutix, Greg led financial operations, strategic partnerships, and drug development operations. Earlier, he was a senior executive at PRA International, where he drove international clinical development programs and business performance across multiple regions.

He has lived and worked in Germany, the UK, the U.S., and Canada, bringing a global perspective to boardroom decision-making and risk oversight.

Strategic Contributions

- Board Governance & Leadership
- M&A and Licensing – Led and negotiated multiple licensing agreements with large pharmaceutical partners
- Technology Enablement – Oversaw implementation of multiple enterprise and operational systems
- Data-Driven Decision-Making – Skilled in risk management, program oversight, due diligence, and post-merger integration

Credentials

- MSc, Clinical Research (with distinction)
Liverpool John Moores University
- Corporate Governance Certificate
Wharton Executive Education (Credential ID: 61040616)
- Fellow of the Institute of Clinical Research (FICR)
Institute of Clinical Research
- PMP® Certification (Project Management Professional)
Project Management Institute (Credential ID: 33205)

Board Interests

Open to private, venture-backed, and early-growth biotech/life sciences companies seeking strategic oversight in clinical development, licensing agreements, operations, and governance, as well as nonprofit organizations advancing clinical research. Particularly interested in companies preparing for proof-of-concept, scale-up, or strategic partnerships.
